

MOVING VAN SIZING GUIDE

Tailored Moving Solution

Not sure what size van you need for your move in or around Canary Wharf? You're not alone. Selecting the right van is key to avoiding wasted space, saving money, and ensuring your items arrive safely. At Man and Van Canary Wharf, we've put together this quick and easy guide to help you pick the van that fits your move.

Van Sizes Explained

Van Size	Best For	Capacity	Fits
Small	Quick deliveries, student moves, or a single item.	up to 600 kg	a chest of drawers, or a washing machine.
Medium	Small flat moves	up to 1000 kg	Bed + mattress, 20 boxes.
Large	1-2 bedroom flat moves, or heavy, bulky items.	up to 1200 kg	2 sofas, fridge, bed, desk, 30+ boxes.
Luton	Larger house or office moves.	up to 1000 kg (800 kg with tail lift)	Multiple wardrobes, white goods, 40+ boxes.

Quick Tips Before You Book FAQs

- **Measure your largest items** – sofas, beds, and wardrobes can take up more room than you think.
- **Don't just think weight** – volume matters. A bulky but light load still needs van space.
- **Still unsure?** Send us pictures or a list of your items – we're happy to advise.
- **Access matters** – check the height and width of car parks or loading areas at both ends.

Q: What van size do I need for a studio flat?

A: A medium van is usually enough for a studio flat. It can hold a bed, a few pieces of furniture, and several boxes.

Q: Is the Luton van bigger than the large van?

A: The Luton van offers more space due to its box shape, but the large panel van may carry a heavier load. Choose based on whether volume or weight matters more.

Q: Can I help the driver to speed up the move?

A: Yes, customers can help load and unload if they wish. It often speeds up the process and reduces hourly costs.

Q: Do you provide packing materials?

A: Yes, we offer boxes, bubble wrap, and tape. Let us know in advance so we can include them.
